

Q&A's – RFP 2325-04 NAPE Storage Pole Barn 01/19/2023

1. Is the County looking for specific bath and lighting fixtures?
 - a. No, least cost LED fixtures. Bath fixtures are least cost meeting code. Basics only.
2. Any specific type of flooring to be used for the office/restroom?
 - a. None, will be finished slab as flooring.
3. Will area floor drains be required in the building?
 - a. Only if code requires. A floor drain in restroom is likely required.
4. Office and bath paint colors?
 - a. Pure white, bright white or similar. No preference on brand or sheen.
5. Exterior cladding color?
 - a. Yes, we want colored steel cladding. I do not believe standard metal colors per each manufacturer would change the pricing to a measurable extent. We will pick a color that closely matches the shop currently in place. It's a light cream to tan. We will select the closest matching color based on contractors' choice of supplier/ manufacturer of cladding, that is offered to us. Generally, of a cream/ tan color.
6. Do you have permit cost estimates?
 - a. We do not have estimates for permitting. Our planning department can supply an estimated cost for you.
